**HOSPITALITY**

**YOU**

CAN HELP CHANGE OUR

COMMUNITIES HERE'S

HOW

ANGKORLAND  
URBAN BOUTIQUE

# MAKE A DIFFERENCE VOLUNTEER WITH ANGKORLAND

The aim of Volunteer Programs is to create awareness of Volunteering opportunities in Siem Reap

We provide volunteers with an amazing experience while they are donating their valuable time and expertise to those who desperately need help

While generous volunteers help look after the people of Cambodia, we look after them

# ANGKORLAND

URBAN BOUTIQUE

Angkor Land Urban Boutique has established Volunteering Programs that bring volunteers from all over the world to support the Khmer people with practical, sustainable and direct help

Our programs provide ongoing and measureable benefits to the local community

All volunteer programs are community based, Angkor Land Volunteer is not an NGO our role is to connect people who wish to help others with those that need help

**PRACTICAL PROGRAMS HELP  
PROVIDE CLEAN WATER**

70% of rural people do not have access to clean water

Polluted water leads to major health problems and is a cause in many deaths of children under 5 years old

## PRACTICAL PROGRAMS INSTALL A TOILET

58% of rural people do not have access to hygienic toilets, this is even a problem in schools.

Lack of sanitation leads to life long health problems through multiple bouts of diarrhea.

# PRACTICAL PROGRAMS BUILD A HOUSE

In rural Cambodia many people live in fragile structures of thatched palm Frond roofs and walls and dirt floors They are not weatherproof and often do not survive the wet season storms Houses that our volunteers build are solid and designed to last 15 years

# PRACTICAL PROGRAMS SCHOOLS IMPROVEMENT PROGRAM

Schools do not have the budget to improve or even maintain grounds and buildings

Something as simple as paving allows the school to offer more to their students, such as job fairs, presentations and safe play areas.

ANGKORLAND

URBAN BOUTIQUE

# EDUCATION PROGRAMS TEACHING VILLAGE SCHOOL CHILDREN

We have connected directly with a school for extremely poor children

We provide them with education, at least one meal a day and holistic care for their entire family

Volunteers support the local teachers, there are so many children in each class there is a need for extra people to help with learning activities

Volunteers may also help in providing extra training for the local teachers

# A SUCCESS STORY AUSTRALIAN ROTARY 'HANDS ON' PROJECT 2017

The 'Hands On' Project has run several times in Cambodia. Before the pandemic time, we helped to facilitate the project 165 prosthetic hands were built and fitted to locals who needed them in Siem Reap and Battambang Provinces. If you have an original project you would like to run, please talk to us. We can make this end of your planning easy

# ANGKORLAND

URBAN BOUTIQUE

Volunteering is an incredibly selfless way to help others less fortunate. Studies prove that volunteers also benefit.

It increases happiness, facilitates personal development and gives exposure to amazing cultural experiences and adventures not available as a tourist.

## COMPANY PHILOSOPHY

5% of all profit from Angkor Land Urban Boutique goes to support community programs to improve the lives of underprivileged people

Support underprivileged people and NGO organizations who help them through our Volunteer Programs

### **PRESERVE TRADITIONAL KHMER CULTURE**

Respect and preserve the environment

70% of our staff are students and we actively encourage staff to undertake external study to improve their lives

Grow each staff members career by providing regular professional development training programs

If you have any questions about our Angkor Land Volunteer Programs, or would like to run a specific project which would benefit the Khmer people please ask our reception staff to arrange a meeting with one of the Angkor Land Volunteer Programs

# ANGKOR LAND COMMUNITY FOUNDATION

## OUR MISSION

To work with communities, encouraging and nurturing the development of the Cambodian people.

## OUR VISSION

Through our partnerships, we can build sustainable, healthy and productive communities.
